Sir:

This amendment is supplemental to the Amendment & Response to Restriction Requirement filed on August 9, 1999.

In the Claims:

Please amend Claim 36 as follows by adding the underlined sections and deleting the sections in brackets ([]):

36. The engine of Claim 25, wherein the compression stroke results in compressing of air within the cylinder, with means for managing air charge [densities] volumes to provide a compression ratio lower than the expansion ratio of the engine [by employing said managing means which includes means for receiving an air charge on the intake stroke and means for retaining a smaller than normal charge].
